Clayko Group - Profile

Clayko Group is a leading Western Australian IT company providing services to corporate Australia. Founded in 1981 as a custom application programming house, Clayko now has offices in Perth and Sydney and has 4 divisions:

- Programming
- E-Business
- Scanning Services
- Consulting

We service the majority of corporate requirements from email, websites and hosting, through to intranets, Software as a Service, document management systems and custom applications. Clayko employs a team of energetic and enthusiastic IT professionals to provide innovative solutions to meet your business requirements. As a Microsoft Certified Partner, we offer the latest technologies with the full confidence of Microsoft TechNet support.

Clayko recognizes that managing business processes, including client and staff interactions, is always a challenge. Getting it right has a direct bearing on productivity and profitability. And with your workforce and client base more mobile than ever, Clayko provides systems and services to ensure that your clients will receive the best service and support at all times.
